We have this morning, jurther nows by the steamer Indian-additional to our telegraphic report of yesterday. There seems to be active warlike preparations among the different powers of Europe, as if to be in readiness for an emergency, shoud it be necessary.

We have glorious political news from the East, West and South. In Connecticut, the Republican candidate for Governor is elected by about 5,000 majority. In St. Louis the Free Democrasic ticket is elected by from 8 to 1200 major ity, and in Dubuque the Administration is 800 behind the Peoples' nomines. Janeaville has elected a Republican ticket; a large majority of the towns in Michigan have followed suit; and we have another victory to record in Mis souri-a Slave State. Jefferson City, has elected the Republican ticket by 70 majority. Add to this our own Charter election, and we have giory enough for one day. Gen. HARNEY, a disputch says, is exasperated

at the appointment of Gen. Smirst to command the Utah expedition, and his friends are endeavoring to got him a separate command in another There was no business of special importance

The famous Townsend trial is at length settled by the acquittal of McHonry. Several sull vessels passed Detroit yesterday

from the upper lakes. Navigation between the upper and lower lakes may now be considered fairly open. The schooner Fred Hill from below, arrived

yesterday. She is the first vessel of the season to come through. The New York market is dull, with a decline la flour of from 5 to 10 conts. Wheat market

scarcely so buoyant as yesterday, Our own market exhibits a downward tender by in whoat. Nothing doing in flour. The weather is cold and chilly. It like March than April.

THE TAX-BATERS ROUTED AT ALL POINTS.

Milwanken Rodesmed!

We have noither time, nor space, this morn ing, to speak in detail of the result of yesterday's election in this city. The figures below tell their own story. The moral we shall endeavor to give in our next. Let it suffice to say, for the present, that the Peoples ticket is elected in this city, by triumphant majorities, as witness the subjoined returns.

The majority for Mr. PRENTISS, for Mayor, is 1,079; for Mr. HATHAWAY, as Comptroller, 605; for Mr. Somwanting, as Tronsurer, 2,062; and for Mr. WOODWARD, as Attorney, 77. The People's ticket for Alderman, &c., is elected in seven, out of the nine Wards. Glory enough for one

SEVENTH WARD-A GREAT VOIE.-The 7th Ward was fought up to the handle, yesterday.-The friends of the People's ticket mustered strong, at the opening of the polls, and kept steadily at work all day. It so chanced that all four of the Poople's candidates for City Officers lant Ward honored the draft by a rousing majority of five hundred in a poll of 1,011 votes. Among the interesting incidents of the day

was the vote cast by HXBER DOUSMAN, the son of Gronds D. Dousman, Esq., who was born in Milwaukee twenty-one years ago, and who had attained his majority just in time to vote at this election. We need hardly say that his first vote was for the Right. THE GLORIOUS "THIRD" REDEEMED!-Never gregation. was a better contest than that in the Third Ward

yesterday. It was most hotly contested, but the People's Ticket carried the day triumphantly. All of the candidates on that ticket receive large majorities, and Mr. Woodward, for Attorney, has 750 majority. Woll done for the Third? For the Sentinel,

BY ORDER. LANCASTER AGADENT AND SCHOOLS—IMPROVEMENTS.—Luncaster has always been an off-horse, governed by opposite checks and rules from any other town. When the whole country prospered, Lancaster stood still; now, when distress prevails everywhere. Lancaster seems hitching on to some strong gaivants battery. Our men are possessed of great spirit and of capital enough to level mountains. Individual and joint enter-prises, single offert and joint capital seem all at

once in competition.
Within a week, nearly \$4,000 have been subscribed for building an academy, and in the same time about \$1,200 have been subscribed and a time about \$1,200 have been subscribed and a fourth thereof pald in to creet a High School building. The spirit to build up Lancaster has even extended to the farmers in the vicinity, who have subscribed liberally for the Academy and High School buildings. Many other buildings and substantial improvements are in progress or contemplated.—Grant Co. Heratd.

First Arrival from Below-The Strain Entirely free from ice. The Schooner Fred Hill, Capt. Cheyne, ar-

rived yesterday afternoon from Port Huron. The Fred Hill left Port Huron on Thursday morning, and passed through the Straits on Saturday night. She came through without any difficulty, and Capt. Obeyne reports that he encountered no inconvenience whatever from ice on the whole voyage. He met several vessels bound down but could not make out what they were. He H. Stephens, of this Port, for \$10,000. thinks he must have passed the Milwaukee fleet in the night time, as he did not see any of the first yessels that left here for below. The Hill. arrived at Green Bay Sunday, and remained there until Monday morning, when she left for this port. She brings a cargo of 170,000 feet of lumber from Port Huron to this city. She was towed up the river by the tug Decatur, and landed at Mr. Hibbard's dook. This is the first arrival at this port from the lower lakes this sea son, and the earliest by nearly a month in five

CHURCH.—The elegant new brick church, to which we alluded a few days since, was appropriately dedicated to the worship of Almighty God, on the last Sabbath. Services were held morning, afternoon and evening, and at each the attendance was very large, and great interest was manifested in the exercises. The morning sermon was delivered by the Rev. T. M. In the afternoon, we had the pleasure of listening to the Rev. Dr. R. S. Foster, and indeed a more touching sermon, it never has been our good, fortune to hear. It was a splendid exhibition of pulpit oratory, and the remembrance of that discourse will long remain in the minds of those who listened to the reverend gentlemen. The evening services were | Bew me up, if you don't, in a big "coffee sack," conducted by Rev. J. Baume of Chicago, and we are informed that he preached to a large con-

> There is another subject, connected with this dedication, which we must mention here—that is the noble liberality with which numbers of the congregation came forward and freely gave material aid in helping to discharge the dobt incurred in building this church edifice. In the morning and afternoon, collections were taken mp, and subscriptions made, amounting to upwards of ten thousand sollars, a large portion of which has been paid, and the balance to be paid when required. MILWAUKEE HARBOR .- The Chicago Press of Saturday, says ... From a late report of Col. Graham to the Secretary of War, we condense the following relative to this harbor. At Milwaukce the piers forming the harbor at the mouth of the river are in a state of dreadful delapdation. If appropriations be not seen granted for their repair, they must go to entire destruction, and the mouth of the river become stopped up by the formation of a permanent bar across it. Already a large amount of dredging is necossery, in addition to the repair of the piers, in

order to save the harbor at this point." We know not whether our Chicago content porary quotes correctly from Col. Graham's roport or not, for we have not seen it, but the above without further explanation, is likely to lead people unacquainted with our city, to believe that we have no harbor at all here, when it is a notorious fact, that we have the best harbor on the entire lake. Although the old Harbor at the mouth of the river is in rather a bad condition, and the piers in a " dreadful state of delapidation," yet we have a new harbor, that is no in a bad condition, and piers, as lasting as the rooks of Gibraltar. A harbor too, such as our

neighbor at Chicago, never can boast of. A CRAZY WOMAN FROM MILWAUKEE AT HORI-A REE NOW ON EXERGIFATION and for satisfavorus 6, Martin's likes, South-West coract satisfavorus 6, Martin's likes, South-West satisfavorus 6, Martin's like con.-The Horicon Argus of the 2d inst, has

Congressionni. Wasenston, April c.

House, The House went into Committee of the Whole on the Deficiency Appropriation Bill. While several members showed the necessity of the bassage of the bill, including the heavy items for the Unit expedition, others earnestly condemned the incurring of debts to be discharged by appropriations to supply deficiencies.

Mr. Seward, of Ga., did not think there was any necessity of getting into difficulty with Brigham Xoung—the whole army operations were carried out on too magnificent a scale.—He would have a law passed prohibiting army officers coming here unless for special reasons. This is the central point from whence emanate all the schemes and all the extravagancies.

Mr. Taylor, of Gs., said nothing had occurred to justify the President in acting in such haste in sending an army.

Mr. Burnett, of Ky., said there is a growing disposition on the part of the Executive department to absorb the powers of the Legislative branches of the Government, and that it was time this was checked. Waseington, April 6.

time this was checked.

time this was chacked.

Mr. Tappan of N. H., condemned appropriation for the Utah expedition, and would not endorse the executive usurpation of making war without the co-operation of Congress. He went into a calculation to show that the transmission of each barrel of flour from Fort Leavenworth to Utah contact 2100. Utsh, cost \$100.
The Committee then rose, and the House ad-

SENATE.—Mr. Slidell, of Ga., having filed with the screetary on Fridny heet, a written declara-tion that he intended to move to reconsider the vote to deagree with the House on the Kansas bill, which motion yesterday, and to day, he re-newed verbally without any action being taken. He claimed the right to keep the bill back 3 days for that purpose.

Mr. Stuart moved to enforce the order—after

that no single Senator shall have the power to batruct business.
Mr. Slidell referred to the rule and insisted on as right. Mr. Bayon explained the custom in such cases,

ant. Bayon explained the oustom in such cases, expressing the opinion that it must be left in the opinion of the officer.

Mr. Douglas could not recognize it as a matter of right, but as a matter of courtesy.

The presiding officer explained that he had asked opinions.

Massar Bright Courtes and the courtesy. Messra. Bright, Crittenden and Seward exressed their pressed their views.

Mr. Bigler, of Pa., presented from Amos Kendall, Chairman, a supplementary memorial asking for further protection against competing tele

or larther protection against the control of the Senate, to day, although it occupied a long time could be expressed in a lew words:

Some skilful parliamentary fencing was ex-bibited in favor of and against the interpretation of the rule in the manual, under which Mr. Slidell claimed, not as a courtesy but as a right, the three-days detention of the Kansas non-concurrence, to allow him to reconsider his The presiding officer, Mr. Fitzpatrick, assum-ed the responsibility of a decision for it. Mr. Crittenden and others testified that they had

discussion, Mr. Fitch, of Md., read an extract from the Globe, confirmatory of the words exchanged between him and Mr. Douglas, yesterday, implying a lukewarmness on the part of the latter in regard to Minnesota.

Mr. Douglas warmly replied, asserting his zest in the cause of Minnesota. The matter was a matter of trifling importance, but flat contradictions were interchanged.

Mr. Green, of Mo., confirmed Mr. Douglas' statement, and the matter subsided.

Mr. Pupt moyed an amendment to the pre-Mr. Pugh moved an amendment to the pre-amble of the Minnesota bill, and appealed to Mr. Douglas, to know if he was not aware that no man was allowed to vote on the Minnesota Con-stitution, except on the same ticket as state off-

etitution, except on the same ticket as state officers.

From Twenty to Thirty Lives Lost.

The community were shocked yesterday niter-The community were shocked yesterday afternoon by the intelligence that another steamboat disaster had occurred but a few miles from our city, attended with a large loss of life. The steamboat Sultan is destroyed by fire, and a portion of the passeogers and crew, probably not less than fifteen—perhaps as many as twenty-five or thirty—have lost their lives.

The boat left here on Thursday night, bound for New Orleans, and was deeply laden; but she had only about lifteen passengers, and it was truly fortunate that the boat was not crowded with people, cise the sacrifice of life would have been so luminanse as to sumpy the disaster as one of the most harrowing that ever occurred. As it is, the auddenness of the disaster, the number of persons lost, and the awdin menner of their death, must send a thrill of horror to the bosom of the

When five miles above Saiot Genevieve, early yesterday morning, the boat was discovered to be on fire, and these who first observed that be on fire, and those who first observed that such was the case, employed themselves in alarming those who were still asleep, sud in adopting measures for their own safety, and that of their friends or relatives. The fire originated in the watchman's locker. As soon as possible after the finnes were discovered, the bont was rounded to, and made towards the shore, and was fastened to a fallen tree. The current, however, help every nowerful, carried the boat into was lastened to a lation troe. The current, nowover, being very powerful, carried the boat into

whom were drowned, while others, who clung to the stage plants or pieces of luralture, were saved. The following is the only statement we could procure yesterday from any one who was on board:

Geo. Howard, (colored.) porter, who was the only one of the Sultan's crew, that arrived on the only one of the Sultan's crew, that arrived on the Great West, makes the following statement: "I was in the ball vary early in the morning, and was thinking to proceed to do some scrubbing, when the watchman came up stairs and late the hall, and sat down by the stoya. I requested him to move so that I could attend to my task, but he paid no attention, and by and by the engineer came in, and seeing the watchman there, when he should have been either above or be low the cabin, he askedhim very angrily why he hadn't his tamps lighted, and requested him to go about it at once, instead of sitting where he so bout it at once, instead of sitting where he was. He obeyed by leaving at once and going down stairs. Shortly after this I observed a remarkable flitting kind of light through the stained anything wrobg, and I proceeded through the ladies' cabic, and opened the door, but I had to recreat instantly after, however, shutting it, and is and some of the hall and almost scorch of sand blinded me. I sprang through the ladies' and gentlemen's cabins, shouting fire, inc, and rushing hurrledly towards the forward purt of the boat, and I showed some of them forward. the plank.
The engineer Iwas told jumped over board with
the online hands. When I was in the water, We will add here that there are many such behind the burning boat, I saw two ladies, and the chambermaid, Dolany, borne by the current promising villages as Hericon, springing up in all towards the wheel, and they were undoubtedly lost. The captain and mate floated off together

on a plank."

The number of persons supposed to have been on the boat at the time of the disaster, was about sixty-sight, as follows: Captain 1; clocks 2,ongineers white 2, captomer 1; porter 1; mate 1, noors 4, pilote 2, carponter 1, porter 1, mate watchman 1, stowards 2, cooks 3, cabin boys watchman 1, stewards 2, cooks 3, capin boys 4, deek crow 80, passengers about 15, and 1 child.

It is impossible at present to give a correct list, either of the sayed or the lost. bly acted on the behalf of the Mosara. Hrown, who have a claim of \$500,000 upon the ships, and they will probably become the owners, and put the steamers upon the line gain.

The Adviatic alone, it is understood, has cost over \$700,000, and the other two ships not cless than half a million each. The original stockholders, therefore, lose overything, for the Company has never paid a dividend, and the understaking to compete with the Gunard line, in a financial sense, has been a great commercial dissaster. The only success and satisfaction scheived by the Company was to establish the fact that in constructing cocan steamers we could surpses our British tivals on the ocean. Ocean stoam navigation has been from the beginning a most costly, incardeus and unprofitable business. The first attempt of the Great Western Company ended in ruin, as did the Company which built the unfortunate President and the other ships of the line established from London to this port. The attempt on the pair the other ships of the line established from London to this port. The attempt on the pair has fine of steamships between this port, and Havre was equally disastrous, and several other. Anglo American Company, and several other. Anglo American Companies shared the same fate. The losses have been very few.

American Companies shared the same fate. The losses have been very few.

The only perfectly successful undertaking of the kind has been that, of the Cunards, which, liberally uselsted by the British Government, and managed with great pludence, and nantical skill, has been almost the only exception to a series of diseatopic results without a parallel in commercial coll enterprise.

Business Looking up at Madison,—"Pump Curponter" says: "We notice in various parts of the city unmisthable signs of returning animation in business. On almost every street we notice some building or repairing going on."

"Pump" encourages speculation, and gives a listy shout for the "good time that's coming," in this wise:

"There never was a better time for speculation in Madison, for those who have the rhine, and not the present moment. Money is scarce and property is extremely low. A great deal must be sold, and wheever gets held of it will well line his peckets, for these dull times cannot long exist. As soon as the log clears away, we shall see everything up again. Hurrah for the cial enterprise.

The Collins line has had more than its share

tying his preduction.

It did not be navigated by steam, for he had too much spicatific knowledge to insared such an opinion as that; but, what he did, say was, that ceem steam navigation without government sid, could not be made profliable, and the disastrous termination of all the attempts to make it so, have fully proved the truth of his calculations.—N. Robbers And Attempted Munder.—A most boid and villainous robbery wasseemmitted on Doty's Island last Thursday evening, accompanied with an attempt to murder the victim under circumstances particularly revolting. It seems that a young man named Wright, who is a land, so young man named Wright, who is a land carrying them home, received the sum of film down curtains for a gentleman in Appleton, and as he was trudging along the plank road between McLass and Accentable, in the evening, some of the strate of the complaints of the propersity to reliable to the position of a lead so he was trudging along the plank road between McLass and Accentable, with the club, upon which the assassin jumped upon him and attempted to cut his throat. Mr. was too much sunned by the blow to struggle to receive the profits of a lead says work attempted to cut his throat. Mr. was too much sunned by the blow to struggle much, but grasped his own throat in such a manner that the villain succeeded only in leaving one of his fingers. There seems to be a nest of most precious villains infesting that corner of our county which the citizens of Neonals and Menashs, for their own safety as well as good name, should immediately take some effectual steps to exterminate.

This movement on the part of Hudson is probably induced by similar movements in Michigan. At the recent extra session of the Legislature of this State, a bill was introduced coding the Upper Peninsular to the General Government for the organization of a new Territory. It met with much favor from the press, of that State, and would have become a law, but for the want of time to properly consider it. Another effort to secure the passage of the bill; will, be made at the next session of the Legislature, when there is every probability that it will succeed. MEDICAL BOOKS. THEE ASTESNIESON of the Medical Profession and Sudents is invited to my associated of Madical Books, which will be found very complete, embracing the Blandarit Works in every department of the filtered Catalogues, with prices attached, furnished on applicaeanction of one House of the State Legislature. The sanction was, however, only apparent, as the vote on the bill demonstrated.

The effect of the efforts to remove the measure, or to reverse the general judgment of unqualified condemnation, with which it was met, will, we trust, be futlie. Its appearance in the Legislature was a surprise to the people, who had never looked, or asked for, or authorized such a sudden change in the long established and best settled polley of the State. The vote which it obtained in both Houses of the Legislature was a still greater surprise. It was successful in one branch, and barely defeated in the other, against a pressure of outside influence, and ourcondist, or sent by meil.

The mass of the people of the State are opposed to the whole scheme in all its parts and bearings, either as a plan hurriedly conceived, for the promotion of the agricultural interest of the State, in regard to which it is a mischievous detucion, or as one of a series of exasperating experiments upon sectional feelings, made with a view to help forward a meditated revolution.—

DEAR MADAK:—The reputation of the Medical Discovery, in caring all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most kill-ful physicians and the most carefulDruggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a ful knowledge of its enrative powers, in rejeving all, and curing most of those diseases to which you are unfortunately to liable. That most excrudiating disease to an affectionate mother
